

# MONT SAINT MICHEL

## Half-day sightseeing tour

« Wonder of the Western World » forms a tower in the heart of an immense bay invaded by the highest tides in Europe.

With Rome and Saint Jacques de Compostelle, this great spiritual and intellectual centre, was one of the most important places of pilgrimage for the Medieval occident. For nearly one thousand years men, women and children went there by roads called « paths to paradise » hoping for the assurance of eternity, given by the Archangel of judgement, weighing of the souls.

UNESCO has classed the Mont Saint-Michel as a world heritage in 1979 and this mecca of tourism welcomes more than 2,5 millions visitors a year.
